Please email this form to rules@norcalmls.com or fax to (707) 577-0140 Attn: Data Integrity Dept.

As of January 20, 2021, if a lockbox or keyless access device is present on a property for the purpose of allowing agents access to that property and is located in the Primary Service Area (Sonoma, Marin, Napa, Solano or Mendocino) and listed for sale or lease in the MLS Database, a BAREIS-approved electronic lockbox must be present, or a lockbox that is compatible with the BAREIS-approved system or has been otherwise approved in writing by BAREIS. The BAREIS-approved lockbox must include a key, device, combination, or code to access property. If a lockbox or keyless access device is present on a property for the purpose of allowing agents access to that property and the property is not located in the Primary Service Area, but is located within the primary geographical service area of an MLS subject to a cross-pollination agreement with BAREIS, an electronic lockbox that is compatible with the MLS for the geographical area where the property is located shall also be present. This does not prohibit the placement of additional lockboxes.
