Broker Choice on Designating listings to Public Media Websites

Office Listing Syndication Tool – BAREIS MLS® offers the primary Broker a choice about which public media websites will receive your listings from BAREIS. Your selections will affect all of your listings marked ‘Pass to Internet—Yes.’

To Make Your Choices:

Log into the BAREIS MLS® system, click Admin, Office Menu, Manage Office Syndication. You will see a list of public websites. Simply select Yes or No to include your office listings in the feed that BAREIS sends to these sites.

Your selections in the MLS Office Listing Syndication will not affect any direct data feeds your brokerage provides to websites.

Your Agents Can View Your Choices: Your agents will be able to view, but not modify which public websites you have opted to send your listing data to. Your agents will click Listings, View Office Listing Syndication. An agent may still filter a listing to “Pass to Internet” Yes or No, which will include the listing in your selections or opt out of being sent altogether from BAREIS.
