

TrueForms Online

Professional Publishing Forms

Flexible - Use True Forms On-Line! – Users can choose with TrueForms to write forms at your office or anywhere there is a PC and Internet connection.

Pre-set Forms Packages & Templates – Brokers and managers can setup pre-defined packages of forms for agents. Create templates that contain forms and data pre-set for quick agent use.

Auto Speed Fill – Common data automatically populates forms in a transaction -no redundant typing.

Global Edit Database – Access common data through Global Edit to the backend database.

E-mail forms and contracts to Clients – TrueForms automatically converts a form to a .pdf -a client can easily open, review, print and sign! No additional readers or files needed.

Clause Library – Use and build this handy clause library for the special provisions areas in a contract.

Strike-out feature – Strike legal text with a line through it.

Auto Update forms changes – Your members are always in compliance with the latest updates.
