

Participating Public Websites

Enhance the online visibility of your listings!

If your brokerage participates in the BAREIS IDX Program, you can increase exposure of a listing by selecting “Yes” in the “Publish to Internet” field when entering a listing into the BAREIS Plus system. This ensures the listing appears on more than 2,500 real estate brokerage and agent consumer-facing websites.*

BAREIS also syndicates Active and Contingent listings to the websites below (unless your broker has opted out of syndication).

BAREIS MLS® provides listings to the following public websites:

Apartments.comwww.Apartments.com
