- 6. The file may be in a compressed format called a **Zip**. All computers can unzip a file. We suggest unzipping the file and renaming it for ease of future use.
 - a. Double-click on the file to open it and then either unzip or extract the contents.
 - b. You will be given the ability to choose the destination. The default is always the current location of the zip.
 - c. We suggest renaming the file as: CSV_SFAR
